Examples are public cases, not PayTech clients. PayTech does not provide legal advice.

“PayTech's Consultant was great to work with and lean on with getting our tax cases under control. She did not require a lot of support and was always happy to step in or shift directions during her assignment period. She was not afraid to take on or volunteer to take on complex cases and was well liked by our customers. She would be the first one I would be happy to have back if the need arises and she's available.”

COMPLIANCE CONSIDERATIONS

You're busy enough. We help you prepare and stay in compliance.

- ✓ Are you worried about the possibility of fines, fees, penalties or worse?
- ✓ Did you know that you or your executives could face personal liability?
- ✓ Is your organization in compliance with pay practices and policies under the FLSA and State labor standards?
- ✓ Does your team have the time, training and expertise to address compliance changes?
- ✓ Are you fully utilizing your system?
